

LSA REPORTER

Editor—Sal Dulcamaro, CML

Editor—William M. Lynk, CRL * Editor—Alvin Moebus

Publication Deadline: Submit items Two (2) Weeks (14 calendar days) prior to the LSA meeting date.

LSA Website: <http://home.earthlink.net/~lsamichigan> (case sensitive)

PRESIDENT'S MESSAGE—MAURICE HORNE, CML

Let me begin by wishing everyone a happy new year, and a prosperous one also. Many events are scheduled on the calendar for this year so watch your calendar closely. **Mary Hester** from JLM Wholesale will give the presentation for our February Meeting. Come and learn of the new products that are available to you, and the procedures in servicing it. LSA has a VHS Video Tape library available to all our members to assist you in your learning. Contact **Al Moebus** or **William Lynk, CRL** to sign out a tape. You still have time to sign up for the Basic Electricity and Electronics class which will be on February 11. Contact **Bob Noble, CML** to sign up. There is a PRP test given on March 11, so begin preparing yourself for it. We will have an auction at our June meeting, so start gathering all those items that you want to get rid of and bring it to our June meeting to be sold. We have a lot of new members that are new to the trade so there will be a need for basic tools and supplies as well as the more advance. ALOA will hold the convention in Las Vegas this year so prepare for a double treat of education and entertainment all in one. I hope to see you at the February meeting.

—*Maurice Horne, CML*

INDUSTRY NEWS & ASSOCIATION ISSUES

NEW Requirements to Maintain PRP Certification/ALOA Membership

- ◆ Anyone who has an ALOA PRP Certification (RL, CRL, CPL, CML) as of January 1st, 2006, has that certification **FOR LIFE**. It will not need to be renewed.
- ◆ However, to maintain eligibility for membership in ALOA, a recertification **MAY** be required. The requirements to maintain membership are the same as the maintenance of PRP Certifications required for all who receive that designation after January 1, 2006. "Grandfathering" exemptions do exist. **Please refer to ALOA "Keynotes" December 2005, September 2005 & October 2005 issues for more details.**

EDUCATION & PRP NEWS—*ROBERT NOBLE, CML*

Spring Break is coming but LSA is continuing to have education classes and informative speakers at the LSA meetings.

February brings Mary Hester from JLM Wholesale to the LSA meeting. IR is going to offer some new and exciting news regarding IR Security products. I understand there will be a number of door prizes to award.

See the insert regarding the *Electricity and Electronics* class scheduled for February 11.

March sees John Hohausser returning with the goods on RCI. Welcome back John.

Pick up and mail or fax in your registration form for the PRP March 11. Remember taking the PRP test will earn you ALOA membership renewal points.

See you at CLASS.

-Robert Noble, CML

NEXT LSA MEETING

THURSDAY,
MARCH 9TH AT
7:30 P.M.

TECH TIPS—PIN TUMBLER CYLINDERS

When master pinning cylinders, complete your task in each chamber before progressing onto the next chamber. There will be less chance of error if distracted along the way.

Locksmith Security Association meets at 7:30 p.m., the second Thursday of the month (Sept. to June) in the Metro Detroit Area in southeast Michigan.
UAW Hall
1640 Stephenson Hwy., just north of Maple (15 Mile Rd.), on the east side of street.

PRP GLOSSARY—KEEPING YOU "IN THE KNOW"

reverse strike—n. a strike used for rim mounted hardware used on reverse bevel doors

thermal relocker—n. a relocking device which is activated by heat

TMK—abb. "top master key"

We're On the Web! [Case-SeNsItIvE!] <http://home.earthlink.net/~lsamichigan>

LSA MEMBER OF THE MONTH—ARON BOAG

LSA's newest member, **Aron Boag**, was studying at Moody Bible College in Chicago, but after graduation, as with many of us, Aron felt led to do something else.

Instead of pastoring a church, he found an interim job driving a truck for FEDEX . Because he likes to problem solve and help people, Aron chose to work for a locksmith in Troy MI. After a two-year apprenticeship he decided to strike out on his own!

Three years later he still enjoys helping others, utilizing his mobile service and handling most everything with the exception of car locks.

Aron is single and was sponsored by **Rob Rovinsky**. Let's welcome Aron at our February Meeting!

“Qwik-Qwiz”

Burglar alarm circuits are classified under which article of the National Electric Code?

- A) Article 800
- B) Article 725
- C) Article 760
- D) Article 810

[answer on next page]

IC CORNER—WILLIAM M. LYNK, CRL

Key Retainer Devices (KRDs) are in the industry forefront as a proven way to prevent crime by providing visual authorized accountability. This means that as a Top Master Key is issued for legitimate purposes, the employee's key is temporarily "retained" in the KRD. When they return and replace the Master Key, the employee's key is released and the Master Key is again locked into place. This procedure accentuates safety since accountability is required and Master Keys stay "on premises." Thus, potential crime and security vulnerability is lessened. They are available in SFIC or LFIC for Yale, CorbinRusswin, Schlage, Medeco, Sargent & ASSA.

Caesar Lynk, preparing for his 4th birthday party—Feb. 18, 2006!

VALUE ADDED BY JOHN HUBEL, CML

VALUE ADDED

Locksmith Security Association (LSA) has linked up with LAB and IDN-Hardware Sales to provide VALUE ADDED to potential member applicants. It was just a couple months ago LSA was privileged to have our long time friend and associate Jerry Roraback as our special guest. At that time Jerry extended the incentive for seekers who were “on the fence” considering membership in the LSA. The deal, no one could refuse, was to provide the new LSA member applicant one of the tools-of-the-trade needed as a locksmith – A brand new LAB pin kit. Jerry continues to stand behind his offer!

Ray Stefancian at IDN-Hardware Sales wishes to present these pin kits to each new LSA member who applied at the November meeting by inviting them to pick up their LAB Kit at the Warren, Michigan location (3699 E. 10 Mile Road, Warren 800.468.7490) so they, too, can be sure each new member receives the 600-page catalogue along with some specials to add to their own welcome package. If you, as a recipient, are unable to get to the Warren location, LSA will make sure you get it at the February meeting.

A huge appreciation is given to Jerry Roraback (LAB V. President), Gene Simon (LAB Manufacturer Representative), Arnie Goldman (President IDN-Hardware Sales), Ray Stefancian (IDN-Hardware Sales LSA Liaison) and those who participate at the LSA meetings to display the success and show the importance of LSA. Bottom line: There is always one more reason to be a member of LSA.

PRESS RELEASE—IDN-HARDWARE, LIVONIA, MI

Basic Electricity & Electronics

Instructor: Adam Black, CRL, ALOA A.C.E. Certified Instructor

February 11, 2006

8:00 am until 5:00 pm

*The information presented will be useful in preparing for PRP section L-13. **ALOA Members** who pay the additional \$15.00 lab fee for the test may take PRP Section L-13 immediately after the class. Lab fee \$15.00 payable to ALOA Instructor.*

LOCKSMITH SECURITY ASSOCIATION is pleased to present an ALOA A.C.E. Class: **Basic Electricity & Electronics**. This course begins with fundamental electric theory and focuses on those aspects of electricity that apply to modern access control and electric locking systems.

The class will explore the basics of electronics pertaining to the electronic access control industry. We will explore how electricity is created and utilized. We will also look at the various relationships regarding electricity and how that pertains to the selection of hardware and troubleshooting procedures. To fully participate in this class Students are encouraged to bring their own **digital volt ohm meter, multi-tip screw driver, pocket screwdriver, needle nose pliers, and wire strippers and small hand held calculator.**

Adam Black, CRL has been in the locksmithing profession since 1981 starting with Vincent Safe and Lock in Bakersfield California. He has been with Cothron's Safe and Lock since 1997. He has instructed classes in Access Control, Safe Lock Servicing, Impressioning and Picking and is currently an instructor for Cothron's School of Professional Locksmithing in Austin, Texas.

**COST: Non-LSA Member \$165.00
